

# Corporate Fact Sheet

For more than 15 years, Delphi Technology has been a leading provider of technology solutions to the insurance and risk management industries. By leveraging its extensive industry knowledge and experience, Delphi Technology delivers a comprehensive range of innovative technology solutions for property and casualty insurers, third party administrators (TPAs), self-insureds, and risk retention groups (RRGs).

Delphi Technology's OASIS suite provides proven software applications to run core insurance operations including underwriting, billing, policy administration, claims management, financial management, risk assessment, and reinsurance. OASIS enables companies to optimize their business processes and respond to changing business needs resulting in reduced costs, increased operational efficiency, and improved business intelligence.

Delphi Technology's professional services staff of 150+ technical and insurance experts utilize a proven implementation methodology ensuring the transfer of necessary market and business expertise throughout the deployment process resulting in successful implementations that come in on schedule and on budget.

Headquartered in Boston, MA, Delphi Technology has sales, support and development offices throughout North America as well as in Shanghai, China. The company is privately owned and led by its founder, Sam Fang.

## The OASIS Solution

**OASIS Professional Liability** was designed specifically for the professional liability market and will support your business through the entire lifecycle, from policy quoting through claim resolution. Benefits include significantly improved operational efficiencies, enhanced levels of customer service, and a technology solution that provides the flexibility and scalability required for future growth. The components that make up OASIS Professional Liability are available as a seamlessly integrated solution or as stand-alone optional components.

**OASIS Claims Management** is a complete and proven, end-to-end, multi-line claims tracking and management system that captures extensive information for all claims functions and puts that data at your fingertips. OASIS was built with an open architecture to seamlessly integrate with any policy management system and is entirely configurable to your organization's preferences.

**OASIS Reinsurance** provides primary carriers with comprehensive and proven treaty and facultative reinsurance processing enabling you to tighten management of your reinsurance program, improve cash flow, and generate timely, accurate, and consistent reporting.

**OASIS Risk Management** handles all facets of risk management including online incident reporting, exposure data capture and maintenance, comprehensive claims management, and robust reporting.

**OASIS Workers' Compensation** is a complete end-to-end solution for insurance carriers, TPAs, RRGs, and other professional organizations that market and administer workers' compensation insurance. It will support your business through the entire lifecycle, from policy quoting through claim resolution. The business intelligence components will enable your organization to efficiently monitor the factors that drive the cost of risk.
