Kevin Cannell Joins Delphi Technology as Vice President of National Accounts and Business Consulting

Leading provider of technology solutions to the insurance and risk management industries taps experienced senior insurance executive to support customer service and support goals

Boston, MA – May 23, 2012 - Delphi Technology, Inc., the recognized leader in technology solutions for the medical professional liability industry and a leading provider of technology solutions to the insurance and risk management industries, today announced that Kevin Cannell has joined the company as Vice President of National Accounts and Business Consulting. Kevin is charged with developing and leading the national accounts organization, as well as the business consulting organization.

“I am extremely pleased to announce Kevin’s appointment. His professional background makes him an ideal fit for this key leadership role. He is a skilled relationship manager with deep expertise in the insurance, risk management, and reinsurance industries which will serve Delphi Technology well as we continue to expand and enhance our customer delivery and support models, as well as our service offerings.”, commented Bill Moss, Delphi Technology’s President.

Kevin brings more than 18 years of management experience and a proven track record in developing and successfully executing multi-faceted tactical and strategic solutions in the insurance and risk management industries. Prior to joining Delphi Technology, Kevin served in senior management positions at Insurance Resolution Group Consulting Services, Zurich North American Insurance Company, and Kemper Insurance Companies. He received his Bachelor of Business Administration in Accounting and Business Management from Kent State University.

About Delphi Technology

For more than 20 years, Delphi Technology has been a leading provider of technology solutions to the insurance and risk management industries. By leveraging its extensive industry knowledge and experience, Delphi Technology delivers a comprehensive range of innovative technology solutions for professional liability insurers, third party administrators (TPAs), self-insureds, and risk retention groups (RRGs).

Delphi Technology’s OASIS suite provides proven software applications to run core insurance operations including underwriting, billing, policy administration, claims management, financial management, risk assessment, and reinsurance. OASIS enables companies to optimize their business processes and respond to changing business needs resulting in reduced costs, increased operational efficiency, and improved business intelligence.

Delphi Technology's professional services staff of 150+ technical and insurance experts utilize a proven implementation methodology ensuring the transfer of necessary market and business expertise throughout the deployment process resulting in successful implementations that come in on schedule and on budget.

Headquartered in Boston, MA, Delphi Technology has sales, support, and development offices throughout North America, as well as in Shanghai, China.
